This matter comes before the Public Service Commission of South Carolina (“Commission”) on the Application of Duke Energy Carolinas, LLC to true-up the revenue requirement associated with the implementation of Vintage 0 energy efficiency (“EE”) and demand side management (“DSM”) programs (collectively in the Application, “Vintage 0 Revenue Requirements”) in accordance with the modified Save-A-Watt cost recovery mechanism approved in Order No. 2010-79, Docket No. 2009-226-E and the Commission’s Order No. 2012-99 in Docket No. 2011-40-E. Vintage 0 covers the period of June 1, 2009, through January 31, 2010 (in the Application, “Vintage 0 Period”). Duke Energy Carolinas, LLC proposes to account for the true-up through an offset to the company’s existing DSM balance as provided in Order No. 2010-79.

We find that the Application should be approved and hold that the Vintage 0 true-up adjustment that is to be credited to the DSM deferral account is \$20,079.
